

EPOSTERS SSAI 2022

Wednesday Lunch

Topics: Perioperative Care, Pain

Abs.-No.	Title	Presenting	Monitor	Chairs
A-103	Cerebral circulatory ultrasound assessment of patients undergoing robotic surgery in Trendelenburg position (CURT) - results from a pilot study on intraoperative transcranial Doppler monitoring	Kristiansen	M1	Børke W
A-126	Anesthesia for the uncooperative child - current practices in the Nordic Countries	Bartos	M1	Børke W
A-161	Anaesthetic management of awake craniotomy – Our experience and protocol	Vickovic	M1	Børke W
A-190	Glucocorticoid treatment and hyperlactataemia in elective tumour craniotomy: preliminary results	Vassilieva	M1	Børke W
A-212	Spontaneous intracerebral haemorrhage during parturition. Case report	Karjalainen	M1	Børke W
A-251	EEG state space descriptors, EEG microstates quantifiers and their temporal dynamics in intraoperative multichannel EEG: Secondary exploratory analysis of a randomized controlled trial	Neuner	M1	Børke W
A-115	Presence of the partner in the operating room during acute cesarean section. A scoping review	Nedergaard	M2	Wisløff K
A-122	More efficient handling of elective caesarean sections	Frydshou	M2	Wisløff K
A-124	The role of point of care thromboelastography (TEG) and thromboelastometry (ROTEM) in management of postpartum hemorrhage (PPH): Study protocol for meta-analysis and systematic review	Khanna	M2	Wisløff K
A-129	Fanconi Syndrome during pregnancy: Anesthesiological perspectives on cesarean section and postoperative care	Dittlau	M2	Wisløff K
A-142	Extensive epidural spread of cerebrospinal fluid dislocating the spinal cord after an accidental dural puncture in an obstetric patient. A case report.	Kaivola	M2	Wisløff K
A-152	major postpartum hemorrhage after intra partum cesarean section - analysis of risk factors	Waheed	M2	Wisløff K
A-119	Local anaesthesia in new-borns: concentrations of alpha-1-acid glycoprotein increase as a response to major surgery	Linnarsson	M3	Engelhardt

A-133	The PANCAKE study. Paediatric Anaesthesia in Nordic countries; Common guidelines A Key Element	Thyrrestrup	M3	Engelhardt
A-165	"Optimizing the MRI-line - paediatric cases" - A Quality improvement multicenter study with prospectively collected data	Kjellgard	M3	Engelhardt
A-183	Efficacy and safety of ketamine-propofol (Ketofol) for procedural sedation of pediatric patients	Tatic	M3	Engelhardt
A-209	Case Report: Epidural hematoma after the removal of epidural catheter together with general anaesthesia without opioids in a parturient without risk factors.	Bodin	M3	Engelhardt
A-221	Successful recording of direct cortical motor evoked potential from a paediatric patient under remimazolam anaesthesia	Kamata	M3	Engelhardt
A-123	Magnesium in cardiopulmonary bypass priming solution: impact after cardiac surgery.	Dalesjö	M4	Norum H
A-154	Retrospective Analysis of the Coronary Artery Bypass Grafting Surgery: Off-Pump versus On-Pump	Rantanen	M4	Norum H
A-166	A prospective interventional study to detect the efficacy of bronchial cuff pressure monitoring to detect the displacement of lung isolation device in elective thoracic surgeries.	Parab	M4	Norum H
A-186	High risk pregnancy with transposition of great arteries (TGA) repaired via atrial switch- a case report	Ramniceanu	M4	Norum H
A-224	Pre- and post-surgical physiology in vascular surgical patients. A pilot study	Mølgaard	M4	Norum H
A-235	Rare Immune Dysregulatory Disorder Leading to Lung Transplantation	Hope	M4	Norum H
A-134	An evaluation of local routines regarding early epidural placement in morbidly obese parturients and the provision of top up anesthesia when they need an emergency cesarean section.	Hustad	M5	Sigurdsson M
A-139	Assisted Fluid Management guided Goal-Directed Therapy in high-risk non-cardiac surgery	van Beest	M5	Sigurdsson M
A-159	Influence of different doses of remifentanyl on the hemodynamic response of endotracheal intubation	Vickovic	M5	Sigurdsson M
A-170	Autotransplantation of accidental total amputated tongue tip without microvascular surgery	Hansen	M5	Sigurdsson M
A-172	Ultrasound Guided Suprainguinal Fascia Iliaca Block in Acetabular Fracture Surgery: A Randomised Controlled Pilot Study.	Darlong	M5	Sigurdsson M
A-175	Low systemic concentrations of bupivacaine from topical anesthesia of the tonsillar beds after tonsillectomy	Seines	M5	Sigurdsson M

A-141	Neuraxial labour analgesia: How effective is good enough to make the parturients satisfied with the analgesia?	Tuvikene	M6	Eske A
A-149	Comparative evaluation of the analgesic efficacy of ultrasound-guided erector spinae plane block versus intrathecal morphine in patients undergoing percutaneous nephrolithotomy surgery: A prospective randomized pilot study.	Pandey	M6	Eske A
A-162	Mediators of pain and physical function in female and male patients with chronic pain	Danielsson	M6	Eske A
A-168	To Assess Technical Feasibility of Ultrasound Lumbar Sympathetic Block with Electrical Stimulation Needle in Out of Plane Needle Orientation: A Prospective Interventional Study	Punj	M6	Eske A
A-185	Cross-sectional study of chronic non-cancer pain, associated depression and quality of life among the population of users of aged care services of the gerontology center	Vickovic	M6	Eske A
A-207	Implementation of new guideline recommendations, using ultra- low dose intrathecal morphine, for post-caesarean analgesia and its impact on pain, nausea and pruritus.	Korneliusson	M6	Eske A
A-114	Preparing for obstetric anaesthesia - an educational randomised controlled trial comparing e-learning to written course material	Legaard Andersson	M7	Høiseth L
A-128	Depth of Anaesthesia Monitoring in Norway: a web-based survey	Aasheim	M7	Høiseth L
A-143	Decision to delivery interval for Emergency Caesarean Section during on-call hours was unchanged following organization change. A register-based study at Danderyd University hospital.	Borglund Hemph	M7	Høiseth L
A-245	Neurocardiogenic syncope type 2B, an obstetric case report	Al-Taie	M7	Høiseth L
A-247	Reducing the Climate Impact of Anesthesia: Vacuum Ultraviolet Photolysis of Anesthetic Compounds	Ohide	M7	Høiseth L
A-200	Reliability of bioreactance and pulse power analysis in measuring cardiac index during cytoreductive abdominal surgery with hyperthermic intraperitoneal chemotherapy (HIPEC)	Kaakinen	M8	Pischke S
A-211	Atmospheric Environmental Impact of Anesthetic Compounds	Nielsen	M8	Pischke S
A-213	Recurrent perioperative anaphylaxis five days after Patent Blue V injection. A case report	Munkeby	M8	Pischke S
A-218	Reducing delays in emergency surgery using a quality improvement methodology	Bjørnstad	M8	Pischke S
A-230	The impact of high-dose glucocorticoid on endothelial damage after major liver resection –	Pitter	M8	Pischke S

	a predefined double-blinded randomized clinical trial sub study			
A-255	Increased local inflammatory response to MOC31PE immunotoxin after cytoreductive surgery and hyperthermic intraperitoneal chemotherapy	Asvall	M8	Pischke S
