

2022 SSAI congress

Thursday 9 June Oral Presentation Abstracts 12.45-13.45

Perioperative Care

Central Park A. Chairs: Høiseth L/Hansen T

A-104 Clear Fluid Fasting In Pediatric Anesthesia - Room For Improvement!

Presenting author: Overgaard

A-121 Premedication in paediatric anaesthesia in Scandinavian countries.

Presenting author: Salmi

A-160 Effects of Low Dose Perineural Dexamethasone on the Duration of Popliteal Nerve Block for Anesthesia After Ankle Surgery

Presenting author: Kanerva

A-174 Effect of dexmedetomidine on emergence delirium and recovery parameters with sevoflurane and desflurane anaesthesia in children: A double-blind randomized study

Presenting author: Pandey

A-180 Intraoperative blood transfusion in elderly patients on antithrombotic therapy: A secondary analysis of the prospective, observational POSE study

Presenting author: Hjelmdal

A-234 Parturients are capable of giving informed consent – a qualitative and quantitative analysis.

Presenting author: Wildgaard

Central Park B. Chairs: Norum/Sigurdsson M

A-107 Is general anaesthesia for peripheral vascular surgery correlated with impaired outcome in patients with cardiovascular comorbidity? A closer look into the nationwide Danish cohort.

Presenting author: Bisgaard

A-114 Preparing for obstetric anaesthesia - an educational randomised controlled trial comparing e-learning to written course material

Presenting authors: Andersson/Duch

A-184 The use of Surgical Pleth index in guiding anesthesia in gastroenterological surgery

Presenting author: Bergman

A-198 Safety of peripherally administered norepinephrine during surgery, a prospective multi-center study

Presenting author: Christensen

A-223 Changes in cerebral near-infrared spectroscopy values reflect changes in cardiac index during cardiac surgery

Presenting author: Kaakinen

A-252 When is type and screen useful? A retrospective observational study

Presenting author: Morberg

Emergency medicine and Prehospital Care

FrognerParken Chairs: Wisborg T/Søvik S

A-109 How much training is enough? Low-dose high-frequency simulation training and maintenance of competence in newborn ventilation

Presenting author: Haynes

A-137 Intubation first-pass success is not associated with 30-day mortality in Finnish HEMS.

Presenting author: Ljungqvist

A-188 The Paramedic Norwegian Acute Stroke Prehospital Project (ParaNASPP) - Diagnostics and triage of acute stroke by paramedics using the National Institutes of Health Stroke Scale (NIHSS)

Presenting author: Guterud

A-202 Comparison of intranasal and intramuscular naloxone in opioid overdoses managed by ambulance staff: a double dummy, randomised, controlled trial

Presenting author: Dale

A-222 Intraosseous fluid resuscitation causes systemic fat emboli in a porcine hemorrhagic shock model

Presenting author: Kristiansen

A-243 GameStroke: paramedic students simulating stroke examination by gamification

Presenting author: Harring

Intensive Care Medicine

JernBaneTorget A Chairs: Perchiazzi/Pischke

A-108 Mesenchymal stem cells restored lung function in acute respiratory distress syndrome donor lungs in a ex-vivo lung perfusion and lungtransplantation model

Presenting author: Edström

A-111 Acute kidney injury after lung transplantation

Presenting author: Wijk

A-181 Use of the Pediatric Logistic Organ Dysfunction Score in assessing the outcome of patients with multiple organ dysfunction syndrome

Presenting author: Tatic

A-204 Characteristics, management and outcomes of thirty COVID-19 ARDS patients supported with veno-venous extracorporeal membrane oxygenation at Rikshospitalet, Oslo University Hospital.

Presenting author: Bakkehaug

A-208 Cerebral microbleeds and Fazekas scale in brain magnetic resonance imaging after critical COVID-19: a prospective cohort study

Presenting author: Ollila

A-217 Thromboinflammatory response is increased in pancreas transplant alone versus simultaneous pancreas-kidney transplantation and graft thrombosis is associated with complement activation

Presenting author: Rydenfelt

JernBaneTorget B Chairs: Sigurdsson G/Frisvold

A-140 Predicting favourable functional outcome of intensive care patients

Presenting author: Pietiläinen

A-203 Treatment of cardiovascular dysfunction with PDE3-inhibitors - temperature dependent effects on cellular elimination of cAMP and cGMP

Presenting author: Kuzmiszyn

A-214 Frailty and follow-up status in elderly intensive care patients: Results from the Danish VIP2 cohort

Presenting author: Nedergaard

A-244 Can we use protective lung ventilation strategies in acute brain injury patients? Preliminary analysis of the BrainVent study

Presenting author: Holgersen

A-249 Detection of intramuscular and subcutaneous ischemia using a conductometric pCO₂ sensor and microdialysis measurements.

Presenting author: Hødnebo

Pain

Hyde Park. Chairs: Kvarstein/Romundstad

A-136 Genome-wide association study on post-operative nausea and vomiting

Presenting author: Ahlström

A-144 The use of scoring assessment tools for Pediatric iatrogenic withdrawal syndrome in Scandinavia – an observational survey

Presenting author: Solberg

A-169 Comparison of Dural Puncture Epidural (DPE) with Ropivacaine and Levobupivacaine

Presenting author: Punj

A-176 Efficacy and safety of intrathecal morphine chloride for postoperative analgesia: a randomized trial

Presenting author: Tatic

A-232 Effects of 2.5 IU oxytocin or 100 µg carbetocin on pain intensity and opioid consumption after planned cesarean delivery; a randomized controlled trial.

Presenting author: E Bekkenes
